

Jeroen Kloppenburg

jeroen.kloppenburg@xs4all.nl | +31 6 48059430 | github: Kloppie5

Interested in all the low level details of software and hardware.
Always looking to break things and find out how they work.
Looking to get into cyber security for pentesting / ethical hacking.

Education

MSc Computer Science - Software Technology

2019-Now

Delft University of Technology

Specialization: Quantum Computation

Thesis: Static Binary Translation (WIP)

BSc Computer Science and Engineering

2015-2019

Delft University of Technology

Paper: A Survey on Distributed Machine Learning

Minor: Finance

Experience and Interests

Reverse Engineering	Binary Analysis, Memory Manipulation, Mono Framework
Low Level Programming	Assembly, File Formats, Operating Systems, Compilers
Networks	Communication Protocols, Network Security
Linguistics	Natural Language Processing, Machine Translation, Pragmatics
Music and Sound	Audio Manipulation, Sound Synthesis, Music Theory
